MAKING MOBILE GLOBAL™

The Kymeta™ u8 GO provides a complete connectivity solution for on-the-go communications when and where you need it.

The easily maneuverable u8 GO can support communication while in the case, on the ground or mounted on a vehicle for easy deployment in a multitude of use cases.

The transportable configuration has been custom designed for the revolutionary software-defined, electronic beam steered u8 terminals. The multi-function hardened case is tested to MIL-STD-810H transportation standards and comes with hardened tie down points.

Broadband connectivity packages for the u8 with are available from Kymeta in either satellite-only or satellite/cellular by-the-gigabyte packages, and our all-inclusive bundle of hardware, connectivity, and support, Kymeta Connect™, is offered at an affordable monthly rate.
